For any individual farm in any of the foregoing counties the rate of payment for diverting such part of the general soil-depleting base as is in excess of the home consumption needs for the farm (but in no case in excess of 15 percent of such base) shall be that rate determined by multiplying the county average rate for the county in which the farm is located by the productivity index for the farm established in accordance with the provisions of section 49 (d). Part V, and dividing the result thereof by 100.

I. W. Duggan

I. W. Duggan,
Acting Director, Southern Division
